

THE PROCESS

Here's the Deal

Man, we are so excited you're interested in dlb. Really! Our team at dlb design can't wait to get started on your project and help you realize the dreams floating around in that head of yours. Working with businesses and homeowners, we try to make this process streamlined, efficient, and enjoyable! We work hard to make sure that the end result is not only beautiful and functional, but also brings you joy. The information in this guide will help to answer any questions you might have about dlb's services and project process.

services

INTERIOR + EXTERIOR DESIGN

Truly, the sky's the limit. We can design from the early stages of floorplanning all the way through construction...or, we can suggest a demo for your ugly bathroom and create for you something amazing!

INTERIOR DECORATING

Wait... isn't this the same thing as interior design? Nope! Interior decorating means selecting pieces that make your house a home and make the space feel like you. It's the "makeup" that can help enhance the natural beauty of your space. dlb can help you select anything from big furniture to those few special elements that make your shelves look just right.

FLOORPLANS + PERMIT DRAWINGS

For a space that doesn't even exist yet... dlb can bring those dreams to life with renderings and plans that bridge the gap between the space in your mind and the space that brings you joy for years to come.

3D REDNERINGS

Are you the type of person who needs to see the design come to life before you can commit? We've got the technology for that, and we promise it's pretty awesome.

RESTAURANT + COMMERCIAL DESIGN

Want to make your business that latest local hotspot? Your wedding venue totally unique? We can do that.

How it Works

- 1 You make the first move (through the website, an email, etc.). We'll set up a time to talk. Then, we'll chat about your needs and set up a time to meet face-to-face.
- 2 You'll meet with dlb for an initial consultation. We'll meet at your home or business and discuss your budget and the project goals.
- 3 From there, dlb's team of talented designers and assistants will get to work making your design dreams come true. We will communicate directly with you as your project develops. Updates will be given regularly as we receive them from contractors, factories, and workrooms.
